Jotto

It creates a comfortable environment and to save on energy cost. **JOTTO** is suitable for different types of heating plant, as:

traditional – floor heating – boilers – pellets stove.

JOTTO thermostat is installable in **3 simply steps.**

All the necessary to install JOTTO is inside the packaging..

- Connect the Gateway to the boiler, or in case of presence of an existing chronothermostat, replace it with JOTTO.
- Place JOTTO where you prefer, thanks to battery powered and to BLUETOOTH 4.1 there are not any obligation and it will not be necessary any router for the temperature regulation on site.

JOTTO is **easily programmable** thanks to its rotating bezel and to its single push button that make easy the menu navigation.

Thanks to the APP “**JOTTO-TERMO**” you can display and program the chronothermostat temperature in real time from you smartphone.

Are you often on deadline and not at home?

Thanks to APP “Jotto-Termo” you can check the temperature and optimize the consumption when you are out of your home too.

It is enough to connect Jotto to a wifi net to communicate with it from everywhere.
